

Dear City Councilmember \_\_\_\_\_,

(I am a Concord resident and)

I am writing to express my support the Community Coalition platform, and for consideration of the full range of project alternatives (including Alternatives 6 and 7) in the Concord Naval Weapons Station Community Reuse Plan.

The Community Coalition is requesting 80% parks and open space and a vibrant transit-oriented development. I support the creation of a major new regional park east of Mount Diablo Creek, a 300' buffer to the creek, and a an urban linear park along the Station's western boundary. Transit-oriented development should be centered on North Concord BART, north of Willow Pass Road, and in "Bunker City" between the linear park and the creek buffer.

Thank you for your consideration

Sincerely,  
(Your Name)
